Rainbow Farm / Madison, OH - fruits and vegetables

Middlefield Cheese / Middlefield, OH - cheese

*the story behind the name*

The name honors the Michelson and Morley experiment, which took place at Case School of Applied Science and Western Reserve College in 1887. This collaboration resulted in the awarding of the Nobel Prize in physics to Albert Michelson in 1907 and the findings initiated a line of research that eventually led to Einstein's theory of relativity.

Tony Smoody *executive chef*
